Please read each section and sign below, even if you are not receiving chiropractic care.

Health: a state of optimal physical, mental, and social well-being, not merely the absence of disease.

The most common therapeutic procedure performed by doctors of chiropractic is known as “spinal manipulation,” also called “chiropractic adjustment.” The purpose of manipulation is to restore joint mobility by manually applying a controlled force into joints that have become hypomobile – or restricted in their proper movement – as a result of a tissue injury. Tissue injury can be caused by a single traumatic event, such as improper lifting of a heavy object, or through repetitive stresses, such as sitting in an awkward position with poor spinal posture for an extended period of time. In either case, injured tissues undergo physical and chemical changes that can cause inflammation, pain, and diminished function for the sufferer. Manipulation, or adjustment of the affected joint (as well as the use of other modalities) and tissues restores mobility, thereby alleviated pain and muscle tightness, and allowing tissue to heal.

The material risks inherent in Chiropractic adjustment.

As with any health care procedure, there are certain complications which may arise during a chiropractic adjustment. Those complications include: fractures, dislocations, muscle strain, costovertebral strains and separations. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment.

The probability of those risks occurring.

Fractures are rare occurrences and generally result from some underlying weakness of the bone which we check for during the timing of your history and during the examination. Stroke has been the subject of tremendous disagreement within and without the profession with one prominent authority saying that there is at most a one-in-a-million chance of such an outcome. Since even that risk should be avoided if possible, we employ tests in our examination which are designed to identify if you may be susceptible to that kind of injury.

I have read the above explanation of the chiropractic adjustment and related treatment. I have discussed it with my doctor and have had my questions answered to my satisfaction. By signing below I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest (or said minor's interest) to undergo the treatment recommended. Having been informed of the risks, I hereby authorize the Doctor to examine, perform diagnostic studies and treat my condition as he/she deems appropriate through the use of Chiropractic Health Care, and I give authority for these procedures to be performed. The Doctor will not be held responsible for any pre-existing medically diagnosed conditions nor for any medical diagnosis.

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care on this basis.

Financial Policy

Effective Date: December 2014

It is our office policy that payment for services rendered is ultimately the responsibility of the patient, whether or not you have third party assistance with your financial obligation. We are happy to extend a payment plan to you so that you can follow through with all the care you may require.

All patient fees are expected at the time of service or according to a preset payment plan or program. Personal balances may not exceed \$300 unless on a pre-arranged payment plan. Payment plans are available to ensure you are able to receive all the care you may require.

For your convenience, this office accepts cash, checks, and the following credit cards: Visa, MasterCard, Discover, and Care Credit.

This office participates in a discount medical plan organization (DMPO) and offers discounted fees to uninsured, underinsured, or partially insured patients who are members. We will assist you in learning more about this should you wish to access these discounted fees.

This office does not turn away any patient due to their ability to pay. If you feel you might qualify for our financial hardship policy, notify the office immediately so we can begin your qualification process.

Should payment be refused by your bank for any check written, this office will charge a fee of \$25.70 or 5% of check amount (whichever is greater) to offset the charges we will incur as a result of the returned check.

Any balance left unpaid after a period of 120 days will be assessed an interest charge of 1.5 percent per month (18% APR).

As a courtesy to our patients, this office will bill third party payers, accept assignment, and wait to be paid for some portion of our patients' financial responsibility.

The privilege of insurance assignment begins when our office receives and verifies your insurance information. Until that time, you are considered a "cash" patient and payment is expected at the time of service. As a courtesy to you, our office will pre-qualify your insurance coverage, in an effort to help you determine what coverage is available to you under your policy. We will help you make the best estimate of your coverage for the recommend services. This service is a courtesy to you and is not a guarantee of coverage.

No one can predict what an insurance company will pay for the usual and customary charges for services rendered. If we participate on your plan, you will not encounter balance billing above the stated fee schedule. If we do not participate, we will work with you to determine the amount of coverage and help estimate your responsibility.

If your insurance has not paid on an assigned bill within 90 days, you will be notified. Since we do not own your policy, we ask that you stay in communication with our office and take action with your insurance company at that time. If it remains unpaid within 120 days the balance becomes due and payable immediately and your assignment is revoked.

All patients whose treatment visitation schedule is once per month or longer will no longer be eligible for insurance assignment as this level of care is rarely covered by insurance. Our office offers numerous payment options to allow you to continue maintenance, wellness, or supportive care.

Should you discontinue care for any reason, other than discharge by the doctor, any and all balances will become due and payable at that time. If you are on a predetermined payment plan, that plan will continue to be in effect until your balance is zero.
